

Investiture Ceremony

AUGUST 2022 Vol. 1 ISSUE-1

www.vedhvalleywakad.com

To make our environment a better place to live in we should make a start by making small changes. Thinking about our environment is good but only by thinking nothing will ever change. To make a change you must be the change you wish to see. One such area to make a change in, is creating a better environment. The environment gives us countless benefits that we can't repay in our entire life. But being careless about our environment can one day end life on earth. Nature provides us numerous things such as trees, plants, water, rocks, minerals, air etc. But we humans are unnecessarily wasting these precious gifts given by nature. Decreasing quality and quantity of these resources can become a great risk to our lives. Today the most significant environmental issues are global warming and climate change. These problems are being taken lightly but in future they will surely have a bad impact on the lives living on earth. We can stop these by planting as many trees as possible, reducing air pollution by using electronic vehicles and using environment friendly things. Making a small change by keeping our surroundings clean can also have a positive impact. Our country cannot be called developed simply by constructing factories, buildings, roads etc. If environmental conservation and development is given importance then only can our country truly progress.

- Kashvi Naik (7th A)

BE THE Change YOU WISH TO SEE

Change is the only constant thing in life.

You can't change the world without changing yourself. The first step starts with you. Whatever we have decided, first we should implement it. Change is never easy. But if you want to see the change in the world, you should change. We can always take efforts to bring the right kind of change in the world, to make the world a beautiful place. If you want to see a change, we should be the first ones to implement it. When we want others to adapt a good habit and we insist on it, first we should adapt it. For example, only when we are punctual, we can teach others the value of punctuality.

That is how others will accept the change. Rather than blaming others, or expecting other people or situations to change, everyone should realize that when you change, the world around you changes. So, we should always be bold enough to bring in new changes in the world.

If we want to see a change in our country, we should always initiate good things like do not throw garbage in rivers and on roads, do not use plastic bags- use paper or cloth bags to carry or dispose of things. Only when we take action at the right time, we can see the change we expect. We should set an example for others. We should be the change we want to see in the world.

- Aria Agrawal (4th B)

From Principal's Desk

"If you want the rainbow, you must put up with the rain." Dolly Parton...

"I had a dream ", my teenage son said one fine morning. " I could hear my name reverberating in the stadium while I scored a century", he said. As a mother, I could feel his excitement while he was narrating his dream.

All of us have similar dreams, which we want to achieve in our lives. We all dream and aspire to be a Sachin Tendulkar, a Ratan Tata, a Sudha Murthy, a Shreya Goshal and many more... We know these famous personalities for their contributions in their respective fields, but are we aware of the path that led them to their dreams?

There is no one in the world who hasn't struggled their way to the top. Even the most successful people in the world have faced failures and too many of them. But he who rises up against obstacles and continues the race forward is the one who reaches the top.

The path, dear students is filled with challenges, there will be times when you will feel stressed, anxious, and will want to give up. There will be times when you face failures, but don't fear to make mistakes as mistakes help us learn, polish ourselves and take us a step closer to our goal with more determination.

Achieving and mastering smaller goals is a part of accomplishing the final goal and this can be done by self-discipline, perseverance, and determination. No matter how many hurdles you face in life, the ability to get up again and try harder will make you a winner.

- Chetana Naik

Cartoon by- Aria Agrawal (4th B)

BE THE Change YOU WISH TO SEE

The change I would like to see in my environment is that of nature. There are so many landslides and floods, this is due to the lack of trees in the environment. I believe the change we can do in ourselves is to increase afforestation and reduce deforestation.

***For afforestation,
plant at least 10 trees in a
year. Just imagine! If there are 40
students in a class and everyone
plants 10 trees a year,
a single class can manage
to plant 400 trees a year!***

*Isn't that great! This just won't reduce
floods and landslides but arboreal
animals especially like birds will not go
extinct! Just because if we plant
10 trees a year, we will save someone
or rather many lives!*

*Only planting a tree or a seed
won't help. You've got to do a little
more. From my personal experience, I can
say when we plant a tree we plant it with
love, and raise it as our own and
not let it harm.*

***So don't just plant your tree
and go away!***

*Make sure no one harms any tree or
cuts it off. Not just to your own trees but
other trees too. Eventually, the change that
will occur will be our beautiful,
magnificent green earth.*

****So, plant trees, save trees,
make our earth green!***

****Say NO to Deforestation.***

****Say YES to Afforestation.***

- Navya Singh (7th A)

Every day the dawn changes to dusk, and the weeks, months and years to change. Even we change with the passage of time, so change happens consistently in the world. Some changes are natural like the seasons, weather, days and night. Some are not, have you ever wondered what are the changes we can do to make ourselves and our world better?

For making our world better we need to change ourselves first, we need to do our bit – let us start by being polite and humble, let's be kind to all living creatures, let us help each other. As a student one needs to be punctual so let's sleep early and wake up early too.

Remember the saying 'Early to bed and early to rise makes a man healthy, wealthy, and wise. We all want to be wise and intelligent, isn't it? So what's preventing us?

Let's change our habit of wasting time by watching television or playing video games and utilise it by reading books.

We all complain about the rising pollution, the heat, the dust and the scarcity of water. But have you ever wondered that you are also contributing to it. So now is the time to change – start using public transport, if you have to travel short distance – use your legs just walk!

Protect trees and forests, do not waste paper.

Plant more trees.

Don't just throw away water conserve it.

Are you brushing your teeth with the tap running on?

Its time to change this habit and save our precious water.

Let's segregate our garbage, throw the waste only in the dustbins, reduce the plastic waste and find ways of reusing and recycling our waste and we can change our surroundings for the better.

Change is unavoidable but it's in our hands to make a positive change. It is our responsibility to try to change the things we want to change and not wait for others to do it.

**Let's all strive to change ourselves
for a better and brighter future.**

- Aditi Pendharkar

Perched atop a hilly terrain and overlooking the Bangladeshi plains is Meghalaya, which in Sanskrit means "the abode of clouds." Meghalaya is a must-go place for nature enthusiasts.

We started our journey by taking the Guwahati flight from Pune. We reached Guwahati early morning around 6:30 am. We started experiencing the beauty of the Northeast through the glimpses soon from our flight windows. The view of sunrise from the flight was breathtaking!!

After reaching Guwahati, we headed towards our hotel. The biggest attraction in Guwahati is the Kamakhya Temple atop Nilachal hill. The next day we visited Shillong. On the way to Shillong, we had our breakfast and guess what we had?! It was a bowl of noodles and momos!! I know I know it's all junk but not when you are in the Northeast!

The next destination was the

wettest place on earth- Cherrapunji, which is also called Sohra. There we visited many beautiful places like Dympep viewpoint, Nohkalikhai waterfalls, Dainthlen falls, Khasi Monoliths, Living Root Bridge, Dawki River, etc. Then we made our way to Asia's cleanest village- Mawlynnong. Alas! Every good thing has to end, We returned to Guwahati. we returned to Guwahati airport recalling all the wonderful memories and the magnificent destinations we visited.

During our stay, we had too many noodles and momos and almost developed an aversion to them.

Meghalaya is a place where people revere mother nature and are constantly striving to preserve nature by taking care of the lakes, forests, caves & waterfalls. Mother nature in return showers unlimited beauty on this amazing and beautiful hilly state.

- Ambika Gupta

Daughter:

Good morning mom!

Mother: Why don't you get up early in the morning?

Daughter: Ah! During the holidays I want to sleep for a long long time.

Mother: But dear it will upset your routine.

Daughter: Mother don't worry, it will not.

Mother: I am your mother I know what's best for you.

Daughter: Oh mother! I know that just relax!!

Mother: I have made up my mind. I am going to make you

join yoga class.

Daughter: What? Yoga classes noooooooo.....

Mother: I get that its holidays are going on and you want to rest, but your body needs to exercise also.

Daughter: Mom, please no no no. I don't want to do yoga. I want to enjoy my holidays and relax.

Mother: It's just for half an hour. At least you can spare half an hour for yourself. We will do it together.

Daughter: Okay fine. Let's give it a try.

BHARATANATYAM

~:Namaskaram:~

Bharatanatyam is one of the oldest classical dance forms which originated from the southern part of India. The namaskaram is the most essential aspect which is done before and after any Bharatanatyam performance. It shows respect to the guru, the audience, and Mother Earth or Bhumi Devi for letting us dance on her. Lord Shiva or Nataraja is known as the God of this dance form. This dance form is done through hand movements called 'mudras', leg movements called 'adavus', eye movements called 'Drishti bheda', and head movements called 'Shiro bheda'. Every dance performance conveys a message or a story. Students get trained for many years before they perform on the day of 'Arangetram'. Arangetram means ascending the stage by a dancer on the completion of formal training. Once accomplished this, the dancer could move forward and start training the other learners.

It is now the most popular classical dance style in India.

Apart from India, it is taught and learned in many other countries namely the USA, UK, Canada, Singapore, and Sri Lanka. Learning Bharatanatyam keeps us physically fit as there is a lot of movement of body parts. I am also going through a formal training on Bharatanatyam, and I have performed in 2 concerts. I enjoy dancing as it keeps my mind and body fresh. I recommend Bharatanatyam to everyone who wants to learn a classical dance form.

~:Namaskaram:~

~Anvita Sindhur (7th A)

Mother: Perfect. Love you my child!

That's how my yoga journey started and till date it continues to be a part of me. The various breathing techniques in yoga have helped me in calming my mind. It has helped me achieve inner peace through meditation and has also helped in bringing discipline and dedication.

Yoga is very easy to practice. Yoga doesn't just impact your health mentally but also physically as well. It makes

the body quite flexible.

There is something amazing about yoga. Yoga doesn't need and equipment, nor it requires one to go to a gym, it just requires one simple corner and a mat and you can do so much. It just works using your own body.

We must not forget that it is important to have both, a sense of being healthy as well as feeling healthy. The practice of yoga opens a whole new way of living and enjoying life.

- Kajal Rolli

Read and suggest a suitable title for the Story. and whatsapp on 9545740404

Three Friends sharing their unique stories. They wanted to flaunt their creativity, so none faltered in adding some extra unique matter. So, after Munu, it's either Osam or Mriga's turn. But Mriga wanted to keep her story for the last. She flaunted that she had the knack of it better than any of the others. But the girls were too dominating. Nevertheless, Osam got the chance now and she began describing her village scenario where one could clearly hear the whisper of the winds and chattering of the birds, long trails of tall trees and the dusty roads, in such a village was a huge three-storeyed "Daak Bungla" or a palatial house. Osam belonged to a rich clan of the society. Her story was more to do with

glitters. She spoke about the Daak Bangla which had plenty of rooms, on the first two floors and the third floor was more like an open terrace with a couple of rooms. One such room, beside the terrace, was used by her Grandfather. He had a huge sofa, though not very comfortable but had a strong solidified armrest. Grandfather loved that room and very few had permission to enter it.

Osam began the story, "I was always fascinated about this room and as the eldest daughter of that generation, I was the favorite too. And thus, had complete access to that room apart from Granny and our servant Chotu. My Grandfather had a collection of stoneware belonging to his ancestors and many more such valuable items. Amongst all these non-living valuables, one chattel or a living being was also a treasure of that room. That was Grandpa's Tikktiki, yes Tik-

tikki, no not a squirrel or any mouse. It was a house lizard".

All the girls together, "Whattttt?"

Osam continued, "Yes, it would visit my Grandpa daily sharp at 7 a.m. when he would have his first cup of tea in his favourite room. Tikktikki would crawl down wait near the armrest and sip tea from the saucer, which Grandpa would pour for him...from the same cup.

Tikktikki would not appear in front of anyone else but Grandpa. One such morning, I, in my own merrily mood, dancing and hopping around, entered that room and was freaked out at this sight.

Mriga, "What sight?"

What did you see?"

Munu, "Stop talking Mriga, let us listen. You are breaking the momentum."

Osam continued

more confidently, "My Grandpa introduced me to his pet lizard as if it could understand the language too.

I too asked my part of the formal question, What's his name, Grandpa? Grandpa simply smiled and replied, "why tikk-Tikki!"

From that day onward this tea-sipping sight was merriful for me. I would be regular and punctual to take a glance".

Then Osam paused and suddenly seemed flustered, she told her friends, "Tikktikki doesn't come now as Grandfather too has left us a few months ago. I tried to search and offer the same tea as Grandpa did every morning, but Tikktikki refused to appear ever again".

-Madhushree Mukherjee

The Little Raindrop

I am a gift from heaven,
Splashing on the back of a doe.
My cousins and I set up a bow,
With colours seven.

I have the power to fill up,
Dried lakes and rivers.
I can make you shiver,
While lightning can make you jump.

Sometimes I make you smile,
After the scorching summers.
And sometimes I make you cry,
During the devastating deluge.

I am filled with power,
Enough to make the sun hide.
The clouds that drop me hover,
Over your house in the countryside.

The birds and animals rejoice
Like all the buds do.
You may be furious with me around,
But when I go, you'll cry too

Sherleen Mukherjee
Class -V, Section -A

Be The Change You Want to See..

You want to see the world green,
Start planting trees and keep
the surroundings clean...

You want the surrounding pollution free,
Stop cutting down the tree...
You want to be loved and cared,
Start giving your share...

Don't always search for the sample,
Inspire others by giving your own example...
Earth gives us enough for our need,
You just stop your greed...

Don't wait for someone to start the way,
तोमे एकला चलो रे, तोमे एकला चलो रे...

Thanks and Regards,
Harivansh Rinwa

KAPIL DEV

Kapil Dev was born on 6th January 1959 in Chandigarh in Punjab.

His full name is **Kapil Dev Ramlal Nikhanj**.

He is one of the famous cricket players as well as one of the best team captains ever.

He made many records in cricket and was one of the fastest bowlers of his time.

He was a good bowler as well as a good batsman.

It was 16th October 1978, when Kapil Dev played his first test match against Pakistan.

In 1983, his team won the world cup under his captaincy against West Indies for the first time.

He was one of the youngest cricketers to take 100 wickets just at the age of 21 years. Again 200 wickets at the age of 24 years.

He has been awarded many awards like the Arjun award, Padma Shri, Padma Bhushan, ICC cricket hall of fame, and Wisden cricketer of the year.

In the year 1994, he announced his retirement.

- **Soham Meghawar** (4th D)

Jhulan Goswami

Jhulan Goswami, former captain of the women's Indian cricket team, is one of the world's fastest bowler. She has won the ICC Women's Player of the year award in 2007 and Best Women Cricketer in 2011.

Born to a middle-class family in the Nadia district of West Bengal, she was previously a football fan. She took cricket at the age of 15. She used to travel to Kolkata to play cricket as her village did not have the facility.

She has 40 test wickets in her name in 10 matches. She is the highest wicket-taker in 10 matches. She is the highest wicket-taker in WODI going past Australian Cathryn Fitzpatrick's record of 180 wickets. On 12 March 2022, she became the highest wicket-taker in the Women's World Cup overtaking the previous record of Lyn Fallston.

- **Anvi Rao** (5th A)

MIRABAI CHANU

Indian weightlifter Saikhom Mirabai Chanu was born on August 8, 1994, in Nongpok Kakching village of Imphal east district in Manipur, she is the youngest of five siblings.

Chanu hails from a family of eight members, most of whom are into agricultural work. Since her childhood, she gained her strength by carrying firewood up and down the hills along with her family members.

Mirabai Chanu won silver in the women 49kg category at Tokyo international forum. Chanu lifted total 202kg (87kg in snatch and clean and jerk) during her four successful attempts during the competition. She is the second Indian weightlifter to win an Olympic medal after Karnam Malleswari clinched a bronze medal in the 69kg category at 2000 Sydney games.

Prajna P. Chaudhari (4th C)

NEERAJ CHOPRA

Neeraj Chopra born on 24th December 1997. The nation won its first medal in track and field, which also happened to be the first gold in 13 years. It received the first medal in hockey in 41 years, the first silver in weightlifting, and the first boxing medal in 9 years. P V Sindhu became the first women in India's history who won 2 Olympic medals. The contingent comprised the greatest number of debutants ending up on the podium, and the greatest number of medals ever won-total 7 medals.

- **Jaideep Manshani** (4th D)

First Indian Female Gymnast – Dipa Karmakar

Dipa Karmakar is an Indian artistic gymnast, she first gained attention when she won a BRONZE medal at 2014 CWG in Glasgow, becoming the 1st Indian Female Gymnast to do so in the history of the game. She also won the BRONZE medal at the Asian Gymnastics Championships and finished 5th at 2015 world Artistic Gymnastics Championship, both first for the country. Dipa represented India at 2016 Summer Olympics in Rio de Janeiro, becoming the 1st Indian female gymnast ever to compete in the Olympics. In July 2018, she won a gold medal at FIG Artistic Gymnastics World challenge cup at Mersin, in Turkey.

Dipa was born on 9th August 1993 in

a small town called Agartala in Tripura state. She started gymnastics training when she was 6 years old. Do you know that Dipa had flat feet, which makes it hard to perform gymnastics but she did extensive training and developed an arch on her foot. Since 2011 Dipa has won 77 medals, which includes 67 gold medals, in state, national and international championships. She was awarded 'ARJUNA AWARD' in 2015 for her outstanding performance in sports. In 2016 she was also decorated with highest sporting honour of India that is Major Dhyan Chand Khel Ratna Award. She was also honoured with Padma Shri Award in 2017.

Anushree Palse (4th C)

Pavanraj Patil

National Medalist in Gymnastics

Good things don't come easy, in fact, by overcoming our obstacles and insecurities we bring our true potential.

Mr. Pavanraj Patil, 6 times Sr. National medalist in artistic gymnastics, is also a Shiv Chhatrapati state sports awardee and coach. He has started Olympism Sports and Fitness Centre, where he is encouraging young minds to learn gymnastics.

Gymnastics is the mother of all sports. It not only builds your core – strength but also gives you confidence. Gymnastics serves as a

base for any sports activity. We have such a gem among us right here in Pune, who is training and guiding us not only in gymnastic skills but also preparing us for state and national level championships.

He is a farmer's son and belongs to a small village in Maharashtra and has overcome all odds.

He was offered a job in sports quota by the government, but he did not go for it and decided to pass on his knowledge by teaching gymnastics. I am one of those lucky students who is getting a chance to get trained under him, and let us all take an advantage of this opportunity he is providing us.

-Anika Kabra (4th C)

Rohit Sharma

Rohit Sharma is an Indian cricketer. He was born in Nagpur on 30 of April 1987. He is 35 years old. He joined a cricket camp in 1999 and was coached by Dinesh Lal. He made his first debut class in July 2006 for India-A against New Zealand-A in Darwin. He played his first International Cricket tournament on 23rd June 2007 against Ireland in Belfast. He is the current captain of India after Virat Kohli and is the right-handed opening batsman. He also plays for Mumbai Indians in the Indian Premier League (IPL). His nicknames are Hitman, Ro, Shaana. His height is 1.7 metre. He has scored 41 centuries in all. His highest score is 264 runs in One Day International (ODI), 118 in T20 and 212 in test. His highest score is 264 and was scored in November 2014 in Kolkata against Sri Lanka. He is one of the best batsman of India and is also called the Hitman of India. I love cricket & I want to be a cricketer like Rohit Sharma.

Tanish Gangwal 4th C

CRISTIANO RONALDO

Ronaldo donates blood regularly and does not smoke or have any tattoos on his body.

Ronaldo has won the FIFA world player of the year award, Ballon d'Or, the Golden Boot, and has been named the UEFA Club Forward of the Year as well.

Ronaldo also has a fashion boutique named CR7 and models for men's fashion wear. The store is famous for featuring diamond studded clothing.

He is rich and famous but is always involved with charity, fundraising, and donations to NGOs. He has funded schools in Gaza, and also acts as the Ambassador to Save the Children, and The Mangrove Care Forum in Indonesia

Ronaldo was born on February 5, 1985 and was named Ronaldo after the then US President Ronald Reagan.

He grew up in a poor family and had to share a bedroom and bathroom with his elder brother and two sisters.

He started playing soccer at an early age when he was just eight. He was always running away from doing homework.

A very popular student in school, Ronaldo was expelled at the age of 14 for throwing a chair at his teacher who Ronaldo thought disrespected him. He then turned his entire attention to soccer and went on to become the world's greatest soccer player.

But at the age of 15 Ronaldo was diagnosed with 'racing heart'. His condition was serious and would have made him let go of football. But a surgery saved him and he went back for his training.

On June 2010 Ronaldo became the fourth footballer ever to have a wax statue at the Madame Tussauds museum in London.

In his hometown there is a museum, 'Museum CR7' which is dedicated only to Ronaldo containing his trophies, medals, rare pictures and everything related to Ronaldo.

Ronaldo was doubtful about wearing the Number 7 shirt because he thought it would be too much pressure on him as the number 7 shirt was worn by legends like Johnny Berry, Eric Cantona and David Beckham. After wearing it, he was forced to live up to the number.

-Heet (4th D)

Pusarla Venkata Sindhu

Born on 5th July 1995 is an Indian badminton player. She is considered one of India's most successful sports person. She has won medals at various tournaments such as the Olympics and in the BWF (Badminton World Federation) Circuit, including a gold at the 2019 World

Championship.

She is the first and only Indian to become the badminton world champion and only the second individual athlete from India to win two consecutive medals at the Olympic Games. She rose to a career-high world ranking of no.2 in April 2017

-Ishita Dube (4th D)
